Re: Posting on K-4/K-5 Facebook Page

To Parents/Guardians

The K-4/K-5 Facebook page was created with the intent for the teachers to connect with families about school-related activities. Many families use Facebook/Messenger as a form of communication instead of reading emails or sending/receiving text messages.

At this time, parents and guardians should not be posting birthday party invitations – especially on our school educational page. Those parents who have asked staff to distribute birthday invitations through the classroom have been told that the school can not be put in this position of ignoring the health guidelines. Those parents who have come with paper invitations have been denied distribution of the invitations through the school.

Under the Provincial Guidelines, all social gatherings including birthday parties are not permitted due to the high number of COVID-19 outbreaks in B.C.

Please respect that fact that the school can not be in contravention of health orders as we are tasked with implementing, maintaining and enforcing all public health guidelines for the safety of the students, the staff, the families and the general community.

Sincerely,
Val Allen
SPC Head of School
